A GREAT WHITE SAILING VESSEL

The finest sailing vessel which has been in Honolulu harbor for a long time is the 2319-ton American ship Edward Sewall, which arrived from Oyster Harbor on Saturday, after a trip of sixteen days.

Her master is Captain Quick, and she brought 2,500 tons of coal for the Inter-Island Navigation Company. She will load sugar here for New York.

The Edward Sewall is a comparatively new ship, this being her second voyage, and her first trip to the Islands. She was built in Bath, Maine, by the Arthur Sewall Company, which owns the ships Roanoke, Shenandoah, Dirigo, Arthur Sewall, Iroquois and W. P. Frye.

Captain Quick was here a year ago with the Henry Villard. Captain Sewall, who commanded the Edward Sewall on her maiden voyage, was relieved by Captain Quick. Mate Cole, of the Sewall, was here a couple of years ago in the ship Henry B. Hyde.

The Edward Sewall is lying at the Pacific Mail wharf, she is painted white all over, and is a splendid looking ship. Her bridge runs clear from one end of the ship to the other.

Another arrival on Saturday was the American schooner, Captain Walldick, sixty-one days from Newcastle, with coal. She was anchored in the stream last night.

Yesterday morning the old familiar barkentine Kikikat, Captain Rose, arrived from Port Ludlow with lumber, having made the trip in thirty days. As usual, she had an immense deck-load. She, like the Olga, anchored in the stream.

On Saturday the bark R. P. Rithet, Captain McPhail, sailed for San Francisco with sugar, and the schooner James H. Bruce, Captain Miller, for Puget Sound.

HANALEI'S LAUNCH IS UNRECOVERED

The steamer Hanalei arrived from Punaluu at 9:45 a. m. yesterday, with 7,535 bags of sugar. She had bad luck on the trip, losing her gasoline launch at Punaluu in twenty-eight fathoms of water.

Last Tuesday morning the launch was lowered but was found to be out of order, and was accordingly hooked on and hoisted up again. When high enough the donkey engine man was unable to shut off the steam, and the launch continued operating. Consequently a boat full carried away, letting the launch into the sea, where it was unhooked from the other fall and sank to the bottom.

The place where the launch sank was buoyed and two attempts were made to locate the launch, which ended in failure. The depth of water where the accident occurred is twenty-eight fathoms.

The launch cost about \$1,200, and the Hanalei and Mauna Loa are the only Inter-Island steamers which possess launches.

The Hanalei had not completed loading when she sailed, but the sea was getting so rough at Punaluu on Friday that Captain Pederson decided to leave for Honolulu. No connection could be made at Honokaa or Kukuiahae landings. It was reported by telephone that the Nohau was lying at Waipio with no freight out. Plenty of rain fell at Kau. Crossing the channel coming home big seas and strong north-easterly winds were met with.

The Kauai was lying at Hanalei, waiting to discharge freight and the Mikahala was discharging at Makawili. The schooner Ada was lying at Koloa waiting to discharge. The Waialeale was at Waimea and will probably leave for Honolulu today.

Coming from Nawiliwili to Koloa the smokestack guy carried away and the smokestack was almost lost overboard. The Hall had to put back to Koloa to fix her stack and arrived here yesterday with it, literally speaking, in a sling. It rained hard on Kauai all day Friday and Saturday. The sea was very rough in the channel coming home.
